

Exercise 6 Date:

Experiment with different layouts and color schemes for an app. Collect user feedback on aesthetics and usability using GIMP(GNU Image Manipulation Program (GIMP))

AIM:

The aim is to design and experiment with different layouts and color schemes for an expense tracking dashboard and evaluate user feedback on aesthetics and usability using GIMP.

PROCEDURE:

Tool Link: <https://www.gimp.org/>

Step 1: Install GIMP

- Download and install GIMP from the official website.
- Launch the application after installation.

Step 2: Create a New Project

1. Open GIMP:

- Launch the GIMP application.

2. Create a New Canvas:

- Go to File -> New to create a new project.
- Set the dimensions for your app layout (e.g., 1080x1920 pixels for a standard mobile screen).

Step 3: Design the Base Layout

1. Create the Base Layout:

Using Rectangle Select Tool, divide into:

- **Header Section**
 - App name: *BillBunk*
 - Tagline
 - Logout button
- **User Info Section**
 - Username
 - Total Expense
- **Summary Section**
 - Expense categories (Food, Travel, etc.)
 - Simple chart representation
- **Expense List Section**
 - List of recent expenses
- **Bottom Navigation**
 - Personal | Group

2. Add UI Elements:

- **Text Tool:**
 - App name (BillBunk)
 - Labels (Total Expense, Categories, etc.)
- **Shape Tools:**
 - Buttons (Add Expense)
 - Input-style boxes (for expense cards)
 - Chart placeholders (circles/rectangles)

Example Output:

A dashboard showing total expense, category-wise summary, and expense list.

3. Organize Layers:

Create separate layers:

- Header
- User Info
- Summary Cards
- Expense List
- Add Expense Button

Rename layers properly for easy editing.

Step 4: Experiment with Color Schemes

1. Create Color Variants:

Duplicate base layout (Right-click → Duplicate)

Create 3 variants:

Layout 1: Blue Theme

- Header: Blue
- Background: White
- Buttons: Blue

Layout 2: Soft Red Theme

- Header: Light Red / Pink
- Background: Light Pink
- Buttons: Red

Layout 3: Teal Theme

- Header: Teal

Background: Light Cyan

- Buttons: Teal

Modify colors using:

- Bucket Fill Tool
- Colorize Tool

Example Output: Multiple color variants of the same layout.

2. Save Each Variant:

- File → Export As
- Save as:
 - Layout1.png
 - Layout2.png
 - Layout3.png

Step 5: Collect User Feedback

1. Prepare a Feedback Form:

- Create Google Form

Include questions:

- Which layout looks best?
- Which is easy to use?
- Which color is comfortable?

2. Share the Variants:

Share all 3 dashboard images

Provide instructions to users

3. Gather Feedback:

Example Feedback:

- Layout 1 (Blue):
 - Clean and professional
 - Easy to understand
- Layout 2 (Red):
 - Attractive but slightly bright
- Layout 3 (Teal):
 - Minimal and modern
 - Good readability

Step 6: Iterate and Refine

1. Refine the Design:

- Select best layout based on feedback
- Improve spacing and colors

2. Final Testing:

- Verify usability and clarity
- Ensure dashboard is easy to navigate
